

OUR PLOTS

Nonweiler – live at a beautiful elevated location

These two fully developed sites in the therapeutic climate of the spa resort of Nonweiler offer attractive scenery with good transport connections to Trier, Saarbrücken and Kaiserslautern. This residential area was developed in the 80s and is suitable for the construction of detached or semi-detached houses. The plot sizes are 715 m² and 832 m² and are on offer at an attractive price.

Püttlingen – individual plots

These four fully developed sites in the new area of 'Hengswaldstrasse' are centrally located with an attractive view of the countryside. Kindergarten, school, supply facilities, church and leisure facilities are within walking distance. The cul-de-sac plan ensures peaceful living and the location with its north-south orientation is perfectly suited to the realisation of alternative energy concepts. The plot sizes range from 470 m² to 670 m².

Überherrn – live right on the French border

Überherrn – live right on the French border

LEG Saar recently developed 27 building plots in the new residential area of 'Kollwitzwiese' on an area of approximately 25,000 m² that forms an extension to the southern town district in Überherrn. The plots have an ideal size between 500 m² and 700 m². Work is currently being carried out on development and prices have therefore not yet been decided. Non-binding reservations are, however, possible.
