LOGISTICS INITIATIVE IN SAARLAND

The logistics sector as an engine of innovation

The logistics sector is one of the driving forces for the dynamic development of our economy. The logistics initiative in Saarland links players and users of logistics services. It presents the profiles of all providers in Saarland, mediates between partners and service providers and markets the logistics location Saarland and its players around the world.

The entire spectrum is covered, from consultancy to procurement, production, distribution and waste disposal logistics and through to training, research and development.

All the players in Saarland's logistics sector are listed in the Saarland Logistics Guide. The guide offers investors and users of logistics services a comprehensive research tool for companies, experts and research facilities. The competence of a total of over 250 companies and institutions are described.
